ABOUT ME

Currently at ENSEEIHT studying computer science, I am interested in the field of web and software development, cyber security and system administration. That's why I want to become a devsecops engineer.

WORK EXPERIENCE

Volunteer Capitole du Libre

November 2022

- Managed a team to set up and help throughout the event.

President of net7

2022 - 2023

- Acquired solid skills in system administration and its tools: Docker, Git, Kubernetes, Proxmox, NGINX, Apache, Django, LDAP/CAS, Icinga ...
- Contributed to and developed the codebase used by 5000+ students per year.

Toulouse Hacking Convention

April 2022

- Helped to set up and tear down the equipment for the 2 day event
- Assisted in the hardware CTF preparation
- Creation of a website for an underlying event
