## ABOUT ME

Currently at ENSEEIHT studying computer science, I am interested in the field of web and software development, cyber security and system administration. That's why I want to become a devsecops engineer.

## WORK EXPERIENCE

### Apprenticeship at Viveris

2023-2024

- OS Hardening (**Linux**)
- Creation of an RDIS kit (Network, DevSecOps)

### President of Toulouse Hacking Convention 2023-2024

- Capture The flag Infrastructure (**Azure**, **Terraform** and Kubernetes)
- Organisation of the event

### President of net7

2022 - 2023

- Acquired solid skills in system administration and its tools: Docker, Git, **Kubernetes**, **Proxmox**, Nginx, LDAP, Monitoring, **OPNSense** ...
- Contributed to and developed the codebase used by 5000+ students per year (Django, **GraphQL**, **Sveltekit** ...)

## EDUCATION

### MEng in computer science

2021 - Present

ENSEEIHT, Toulouse

- Local Area Networks and Telecommunications
- Operating System Architecture
- Concurrent and communicating applications
- Wireless telecom systems and security

### CPGE PSI\*

2019 - 2021

Lycée Gustave Eiffel, Bordeaux

- Advanced mathematics and physic courses

## ASSOCIATIONS

### net7

President  
System administrator  
Web developer

### TVn7

IT manager  
Video Capture / Editing  
Visual Effects

## HOBBIES

Managing my home server

CTF and security

Swimming

Hiking
